#### APPS

- Click on an App in order to launch it
- Search for an App if it is not on the App screen
- Use Alt + Tab to toggle between open Apps

#### Customize

- You can drag app tiles around the App screen to customize the interface
- Pin, unpin, and resize App icons on the App screen by right clicking on the App
- Right click on the desktop in order to customize the UI.

#### File Explorer

- Click on the file tab folder in the bottom toolbar of your screen.
- We will create a folder on the desktop using file explorer.
- We can sort, move, organize, search, and delete files using file explorer.
- We will create a series of folders for each area of your life, both academic and non-academic.
- Start by making a folder with your name on it-Mr\_Dills
- Folders-Math, science, budget, resume', PDF'S, JPEGS, Pictures, etc.
- Use the recycle bin-Demo
- Search for files using file explorer
